

Inrichtingsplan Waterdunen

0 100 200 400m

N

This is a detailed landscape architectural site plan for 'Waterdunen' (Water Dunes). The plan features a central water body with several islands and peninsulas. The land is color-coded to represent different vegetation types: yellow for sandy areas, green for grassland, and light blue for water. A network of red lines indicates paths or boundaries. Various building footprints are shown, including a large residential complex on the right and smaller structures scattered throughout the landscape. A scale bar at the top left shows distances from 0 to 400 meters, and a north arrow is located next to it. The plan is bordered by a blue area representing the sea or a large water body on the left and top.
